

Freezer Grade Placard Label Holder

Featuring
HOLD & RELEASE® technology

An identification system for containers, racks and shelving for cold storage.

PLACE LABEL HERE

The **Freezer Grade Placard** is a permanent label holder that allows for easy application and removal of single-use labels with no sticky residue or messy overlapping, keeping containers, racks and shelving units for cold storage neat and clean. This is an ideal solution for cold environments or freezer applications such as: situations encountered in freezer storage conditions at food processing or health and science, some industrial laboratory cold storage facilities, and outdoor storage exposed to weathering and the elements.

Features of the Freezer Grade Placard

- FDA approved for indirect food contact
- Works for temperatures ranging from (-40°F to +250°F)
- More rigorous performing adhesive that bonds at 0°F freezing temperature application conditions
- Aggressive initial tack at freezing conditions
- Good water & humidity resistance
- Designed to withstand indoor and outdoor environments, particularly low temperature conditions

Benefits of the Freezer Grade Placard

- Keep racks and containers neat and clean – easily remove labels leaving no residue behind
- Prevents mislabeled/misidentified racks and containers
- Different styles to meet any specific application
- Can be used with standard permanent labels
- Custom sizes & colors available

The **Original Placard Label Holder**, featuring **Hold & Release Technology®**, allows labels to be easily applied and removed hundreds of times with minimal surface degradation. This innovative product line – ideal for reusable packaging, racks and shelving – is available in multiple sizes, styles, grades, and colors. With a 99.999% success rate, it is the only labeling system in the industry guaranteed to perform. Ask us about warranties on select products. Kennedy Group materials undergo independent testing, including removability and durability, surface testing, QUV weathering, extreme temperatures, and wash cycles. Anything Less Means Risking More.
