

Multi-Trip RFID Tags

Unique combination of functionality, robust construction and outstanding performance-to-size ratio.

SmartCard™
Slider

SmartCard™ Slider

The SmartCard™ Slider was originally designed for waste management processes, promoting efficiency and control. The slider tag device tolerates extreme hot or cold temperatures, are waterproof and can withstand other heavyduty applications.

The SmartCard™ Slider is a unique combination of functionality, robust construction and outstanding performance-to-size ratio. Sliders are the ideal tag for asset tracking applications where a small form factor and durability are vital.

The Slider combines impressive range with a rugged yet compact package designed for industrial applications and are consistently readable with temperatures ranges from -40° F to +150° F. The size of the Slider is .625 x 3.96 inches, allowing the sleek tag to be inserted into small, compact openings.

Features of SmartCard™ Slider

- Rugged encapsulation for industrial applications
- Consistent UHF range performance
- Delivers superior performance on a variety of materials
- Scratch and abrasion resistant

Applications

- Reusable Plastic Containers (RPCs)
- Bulk Containers
- Pallets

Frequency Range

- 860 to 960 MHz

Application Temperature

- 40°F to +150°F
