Elevate your packaging with reclosure, lidding, and flexible packaging solutions designed to improve functionality, extend shelf life, and strengthen your brand presence. Whether you need resealable labels for wipes or confectionery, lidding solutions for single-serve containers, or flexible packaging for sachets and pouches, our team delivers innovative, sustainable options tailored to your product and market.

▼ BENEFITS & SOLUTIONS

RECLOSURE

Peel & reseal labels add convenience and freshness while maintaining packaging integrity. Available in recyclable mono-material constructions for sustainable applications.

LIDDING

Custom lidding films and labels provide secure seals for single-serve containers like yogurt, dips, and pet food. Designed for easy opening and maximum protection.

FLEXIBLE PACKAGING

Lightweight pouches and sachets with premium printing and finishing options deliver portability, portion control, and shelf appeal.

▼ SUSTAINABILITY & RECYCLABILITY

We recognize the challenges of sustainability in flexible and specialty packaging. That's why we offer:

MONO-MATERIAL STRUCTURES

Designed for store drop-off or growing recycling streams.

RECLOSURE LABELS

Engineered for compatibility with sustainable film structures.

LIGHTWEIGHT DESIGNS

That reduce material usage and lower carbon footprint.

▼ BRANDING POWER & SHELF APPEAL

Our solutions don't just protect your product, they help sell it. From tactile varnishes that invite consumer interaction to holographic effects and specialty coatings that deliver striking visual appeal, reclosure, lidding, and flexible packaging can be engineered to create both functional performance and memorable brand experiences.

▼ CAPABILITIES

SUBSTRATES

Polyethylene, polypropylene, paper, aluminum, and more

PRINTING

Digital, hybrid, and flexographic printing for short or long runs

FINISHING & EMBELLISHMENTS

Cold/heat seal coatings, tactile varnishes, metallic foils, holographic effects
